OUTLOOK

Operating environment

- > The Trust is well positioned in the current COVID-19 environment with the significant majority of rental income from Bunnings and other national large format retailers which have been trading well during this time
- > Demand for Bunnings Warehouse properties is expected to remain relatively stable in near term given the ongoing low interest rate environment and strength of the Bunnings covenant

Rental growth

- > 22 CPI/ 19 fixed rent reviews in second half FY2021
- > 13 Bunnings MRR's to be finalised in FY2021 (in addition to 6 unresolved from FY2020)

Portfolio

- > Primary focus for the remainder of the financial year is on leasing vacancies in the portfolio, progressing store upgrades, and extending existing leases with Bunnings through the exercise of options

FY2021 distribution

- > The Trust could expect the distribution for the year ending 30 June 2021 to be similar to the ordinary distribution paid for the year ended 30 June 2020, with capital profits being utilised to support the distribution as necessary. The distribution may be reviewed in the event COVID-19 impacts are more severe or prolonged than anticipated
